

Auger Groupe Conseil Golf Classic 10th Edition

*Thanks to all those who
have contributed towards
the success of this event.*

*This has permitted us to
amass a sum of 12 000 \$ for
the foundation Rêves
D'Enfants..*

MERCI

Québec Grands Prix for quality

*M. Sylvain Leclerc, partner
at Auger Groupe Conseil
Was acting as evaluator for
the 2005 edition.*

Confidentiality and ethics

The names of companies in which we
have carried out projects will not be
mentioned in this newsletter.

AUGER GROUPE CONSEIL INC.
Génie industriel / Industrial engineering

The simulation of processes

For the past couple of months, Auger Groupe Conseil has equipped itself with a simulation software. This addition is an important turn for the services offered by this firm, because it permits not only to better understand the actual operation but to virtually test the proposed alternatives and to measure in advance the impact that the preconceived solutions will have upon implementation. Evidently the simulation is useful especially for studying complex processes where the consequences are expected to be appreciable.

Introduced in the beginning, as support for process analyses, the simulation rapidly became the central element in certain studies realised lately. We therefore were able to calculate the optimal performance while keeping track of all the constraints present such as, for example, the synchronization between different elements of the processes. In many instances the simulation can demonstrate that the real performance of the optimized process will be lower than the theoretical performance calculated.

When a project will necessitate this, in the future you will be able to benefit from this expertise which permits us to attain the optimal solution with maximum precision and eliminate certain risks (often costly) tied into process optimization.

*We invite you to read the
commentary (implantation of ERP
software) on ``Matériaux
Spécialisés Louiseville`` in the
magazine MQQ Forum Qualité
drafted by M. Jacques Trahan,
partner at Auger Groupe Conseil.*

Teamwork makes us strong

*Marc-André Alarie, partner at
Auger-Direcsys is holder of
the certification
6 Sigma Black Belt.*

*Among the services offered by
Auger-Direcsys, there is the
global diagnosis which is an
approach utilized in order to
evaluate a firm starting with its
strengths, its weaknesses, its
opportunities and its impending
pitfalls. This approach is
applicable to the 5 critical pillars
of a firm that is : management,
exploitation, computer control,
finances and marketing.*
