AUGER GROUPE CONSEIL INC.
Génie industriel / Industrial engineering

Evaluation, training and coaching for the senior supervisor

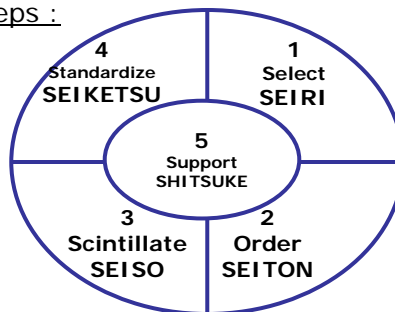

Auger Groupe Conseil prepares the foreman for transition towards a higher level of management.

Auger Groupe Conseil measures the gap between the levels and adapts the training and coaching in such a manner that the foreman will evolve towards a new but competent role taking in accrued responsibilities. Auger Groupe Conseil utilises the PODEC technique to accomplish this.

Why the 5S ?

The objective of 5S is to create a culture within the firm that will perpetuate the fact of having a workplace that is orderly, clean and well adapted. Firms looking for growth and long term prosperity understand that to improve themselves they must rigorously follow standards. 5S is the foundation for establishing and maintaining these standards.

Steps :

The benefits of 5S :

- Eliminates waste
- Improves security
- Improves quality
- Protects equipment

2 new directors at Auger Groupe Conseil

M. Raymond Auger is happy to announce the nomination of Ms Lyne Rousseau, forestry engineer M. Ziane Bensalah, industrial engineer. Madame Rousseau has 14 years of experience mainly in the forestry sector. She has occupied postings such as : plant manager, production manager, manager of quality, safety, security and continuous improvement.

Monsieur Bensalah has 20 years of experience in the manufacturing sector. He has acted as plant manager, production manager and production engineer.

Ms Rousseau and Mr. Bensalah will act as project directors here in order to continue supporting firms by accompanying them in their performances.

Strength through unity
